EXHIBIT A

The Project

The Project consists of the renovation of Rhoads Hall, as the fourth phase of a comprehensive renovation of Sycamore Towers. The Rhoads Hall renovation project will be comprised of the renovation of approximately 99,953 square feet of residence hall space in Rhoads Hall, and will include the installation of new lighting, doors and hardware throughout, as well as new mechanical systems – including the installation of new HV/AC and fire suppression systems. The Rhoads Hall renovation project is a part of a systematic upgrading of residence hall facilities to provide living and learning spaces that are attractive to prospective and returning students.

The overall cost of the Rhoads Hall renovation project is estimated at approximately \$20,500,000, of which approximately \$4,100,000 will be funded from Housing and Dining System reserves and approximately \$16,400,000 will be funded from proceeds of the Series 2017 Bonds. The Rhoads Hall renovation project is expected to be completed for Fall 2018 occupancy.

5c2 Amendment to ISU Dining Services Agreement

Sodexo has provided food service to the ISU campus since 1989. Since that time the quality of food service to all campus constituents has been enhanced and services greatly expanded. The University has negotiated an amendment to the existing services agreement with Sodexo to extend this vendor relationship through June 30, 2031, including a funding mechanism sufficient to complete desired facilities/equipment renovations and enhancements to the Sycamore Towers dining facility. The proposed amendment is shown below.

Recommendation: Approval of the proposed Sodexo services agreement amendment.

5c3 Year-End Closing Authorization

The State Board of Accounts has advised that the Treasurer of Indiana State University obtain approval from the Board of Trustees to make various year-end closing entries. These entries normally consist of transfers, adjustments, and consolidations necessary to ensure the elimination of minor budgetary overdrafts, and the write-off of bad debt. The closing of the financial records is guided by GASB accounting and reporting standards and best business practices.

Recommendation: Authorization of the Treasurer or designee to make all necessary year-end closing entries and distributions.

5d Modification to University Handbook

5d1 Modification of Policy 305 Faculty Appointment, Promotion, and Tenure

Rationale: Faculty Senate has approved the following modification to Policy 305 Faculty Appointment, Promotion, and Tenure. The administration supports this modification and recommends its approval. The text below replaces the existing policy. Current Policy 305.4 will be deleted in its entirety, as it incorporated into the revised sections. Portions of the policy that are unchanged are proposed to be renumbered as indicated.

305 Faculty Appointment, Promotion, and Tenure Policies

These policies are guided by AAUP Policy Documents and Reports.

305.1 General.

Appointments, promotions, and awards of tenure to the Indiana State University faculty shall be by action of the Indiana State University Board of Trustees upon recommendations of the University President. The University President's recommendations shall be based on the evaluations of peer review committees, chairpersons, deans, and the Provost and Vice President for Academic Affairs.

305.2 Basis for Rank and Tenure. Faculty appointments and regular reviews are founded on the disciplines and missions of the academic units and the University. The assignment of academic rank and the award of tenure are based on faculty achievements in the interrelated domains of teaching or librarianship; research, scholarship, or creativity; and service. Activities concordant with the mission, vision, and values of the University are expected of all regular faculty and will be integrated within the three domains of faculty work. The extent to which an individual faculty member's work will emphasize the mission, vision, and values of the University will vary depending on the faculty member's discipline, as well as their teaching assignments, advising and mentoring assignments, and other workload activities.

305.2.1 Domains of Faculty Work. Faculty will engage in the three interrelated domains of faculty work: teaching/librarianship, research/scholarship/creative activity, and service. Faculty are highly encouraged to develop an integrated professional identity so that these domains intersect and overlap in their professional activities. Tenured and Tenure-Track faculty will engage in all three of these domains. Instructors and Lecturers may be assigned a subset of these domains, usually teaching/librarianship and potentially service, with scholarship assigned only with the written acknowledgement of the dean.

305.2.1.1 Teaching/Librarianship. Effective teaching/librarianship should be based on current scholarship in the discipline and evidenced by student learning and articulated outcomes, in accordance with standards and guidelines of the appropriate college and department/school. Faculty should seek to demonstrate continuous improvement in their teaching/librarianship. Teaching responsibilities are more thoroughly described in Faculty Duties and Responsibilities, Teaching Responsibilities (Section 310.1).

305.2.1.2 Research/Scholarship/Creative Activity. Research, scholarship, or creativity should be appropriate to the faculty member's discipline and in accordance with the standards and guidelines of the appropriate college and department/school. This may include original work focused on discovery and integration; and/or scholarship focused on teaching and learning; and/or the scholarship of application/engagement that utilizes disciplinary methods and theories to address substantial problems. The intellectual products of faculty members' research/scholarship/creativity will necessarily be highly varied and take many forms. The review process that determines the professional value of such work should include people with disciplinary expertise. Each academic unit (normally the department) is responsible for determining the relative importance of research activities within the unit.

305.2.1.3 Service. Service includes activities on behalf of the department/school, college, and University, as well as to the profession and the community. Community service includes discipline-related activities at the local, regional, national, and international levels. Each academic unit (normally the department) is responsible for determining the relative importance of service activities within the unit.

305.2.2 Mission-Based Activities. Faculty are expected to contribute to the missions, visions, and values of their department/school, college, and the University. The specific activities listed below have been recognized as central to the University mission, vision, and values. Faculty activities in these areas are evaluated in the context of a faculty member's role at the University, which may change over time; the requirements of their department; the

nature of their field; and other workload activities. Faculty are highly encouraged to incorporate mission-based activities throughout the domains of faculty work to effectively develop an integrated professional identity.

305.2.2.1 Undergraduate Student Academic Advising. The academic advisor serves to guide students through curriculum, academic policy and procedure, and helps to improve student success by encouraging problem solving, critical thinking, and decision making. Undergraduate academic advising may be categorized as either teaching/librarianship or service as determined by the academic college and department/school. Not all faculty are assigned to provide academic advising to undergraduate students.

305.2.2.2 Graduate Student Advising/Mentoring. Graduate student advising/mentoring socializes students into the profession and guides students' professional thinking and writing. Graduate student advising/mentoring may be categorized as either teaching/librarianship, scholarship, or service as determined by the academic college and department/school. Not all faculty are assigned to provide academic advising/mentorship to graduate students.

305.2.2.3 Community Engagement. Examples of community engagement may include research experiences, performances/exhibitions, teaching or tutoring, and clinical experiences that reflect direct collaboration between faculty members and the wider community. Faculty are encouraged to seek such associations, where appropriate. Not all faculty are expected to participate in community engagement.

305.2.2.4 Experiential Learning. Examples of experiential learning may include internships, research experiences, performances/exhibitions, student teaching or tutoring, clinical experiences, and capstone projects. Faculty are expected to provide experiential learning activities for their students, where appropriate. Not all faculty are expected to participate in experiential learning.

305.2.3 Mission-Based Activities as Performed Within the Domains of Faculty Work. Mission-based activities are to be integrated within the three interrelated Domains of Faculty Work. These activities do not constitute a separate domain of faculty work, nor may they be considered a basis for retention, promotion, or tenure in their own right.

305.2.3.1 Establishment of Criteria and Performance Standards Each department/school and college shall establish criteria and performance standards, whereby the mission-based activities described above will be placed within the Domains of Faculty Work and evaluated accordingly.

305.3 Evaluations

305.3.1 Regular Evaluations. The performance of faculty members on renewable term appointments (regular and temporary; full-time and part-time) shall be regularly evaluated according to established criteria and performance standards appropriate to their positions.

305.3.2 Consistent Evaluative Criteria. The University will maintain consistent evaluative criteria and performance standards for the assignment of academic rank and awards of tenure. Criteria and standards will recognize the expectation that tenured and tenure-track faculty members shall demonstrate satisfactory achievement in teaching or librarianship; research, scholarship, or creativity; and service and in any other assignments appropriate to the position or specified in their current letter of appointment. All other faculty shall demonstrate satisfactory achievement in teaching and in any other assignments appropriate to the position or specified in their current letter of appointment.

305.3.2.1 Default Criteria. It is the responsibility of all academic units to establish consistent evaluative criteria and performance standards specific to that unit. A department/school may elect to adopt the consistent evaluative criteria and performance standards of the college; which will be followed in the absence of established department/school evaluative criteria and performance standards.

305.3.3 Calendars. No later than August 1 each year Academic Affairs will produce a master calendar of due dates for all submissions and responses from candidates and evaluations and recommendations from peer review committees, chairpersons, deans, the Provost, and the President.

305.3.4 Faculty Evaluation File. The faculty evaluation file for all reviews for retention, promotion, and tenure shall include (1) a portfolio of materials produced by the candidate. The portfolio should include the letter of appointment and copies of all prior annual review documents (evaluations, recommendations, and candidate response statements, if any), and materials stipulated by the candidate's department/school and college and (2) the evaluation, recommendations, and candidate response statements (if any) from all levels of the current review.

305.4 Peer Review Committees. Each department/school, and the college/library shall elect peer review committees of tenured faculty members and pre-tenure faculty and Instructors, when appropriate to evaluate the achievements of candidates for retention, promotion, and/or tenure. Chairpersons and deans shall not serve on these committees, and faculty members shall participate in no more than one (1) recommendation on a given case. It is the candidate's responsibility to present to reviewing bodies evidence of achievements in the related activities of teaching or librarianship; research, scholarship or creativity; and service in accordance with established criteria and standards of performance.

305.5 Bases for Termination of Appointment of Tenured Faculty. The appointments of faculty members who have been awarded tenure will be terminated only for adequate cause, except in the case of retirement, or under circumstances, such as financial exigencies, decrease in enrollments, or discontinuance of instructional programs, in accordance with policies delineated elsewhere in the University Handbook.

305.6 Probationary Period. Faculty members who, during their probationary periods, do not demonstrate continuing achievement in the interrelated activities of teaching or librarianship; research, scholarship, or creativity; and service are to be conditionally reappointed or terminated.

305.7 Faculty Criminal Background Policy. As mandated by the Indiana State University Board of Trustees, all faculty at Indiana State University will undergo Criminal Background Checks prior to their hire.

305.7.1 Inclusion/Exclusions. This policy shall apply to all Regular and Temporary, full- and part-time faculty at Indiana State University. This policy shall also apply to graduate assistants.

305.7.2 Duration of Validity. Criminal background checks shall be considered valid for up to 36 consecutive months of non-ISU employment.

305.7.3 Transferability. ISU employees will not be subject to criminal background checks in order to qualify for transfer or promotion, or to otherwise change positions on the faculty (including moving from graduate assistantship to a part- or full-time faculty line). However, HR will provide criminal history information collected at the time of hire to units considering applications from current employees with less than 36 months of employment at the university. Faculty who apply for Exempt Staff positions will be subject to new background checks as appropriate to the position.

305.7.4 Confidentiality. Criminal histories shall be considered confidential, whether self-disclosed or obtained from a third-party.

305.8 Compliance with Immigration Laws. All candidates for faculty positions must possess and maintain the authorization and necessary official documents to be employed at Indiana State University under the terms of the Immigration Reform and Control Act. (See also Section 575.)

305.9 Letters of Appointment. Faculty appointments are made by letter from the Provost and Vice President for Academic Affairs prior to the start of the appointment. Appointment letters shall specify only general requirements for reappointment, promotion and tenure (if applicable); and where appropriate, contain notice of the years of prior service to be credited together with the dates of eligibility for promotion and tenure as provided by policies defined elsewhere in the University Handbook.

Examples of contributions include: co-advising a student organization, facilitating student research, serving on graduate student committees, teaching courses, collaborating with faculty on research projects, serving as an off campus clinical preceptor, or other, similar, activities. For example, an associate professor/ librarian credited with three (3) years from another institution could apply during his/her third year at Indiana State University.

305.11.2.1.1.3 Prior Service Credit at Professor Level. Individuals beginning their probationary period at the rank of professor/librarian may be given credit for up to five (5) years of faculty achievements at other accredited institutions. The Provost, in consultation with the Dean, department/school peer review committee and chairperson, will make the determination of prior service credit awarded. These appointees become eligible to apply for tenure during the year in which the years credited and the years at Indiana State University total six (6). For example, a professor/librarian credited with four (4) years from another institution could apply during his/her second year at Indiana State University.

305.11.2.1.1.4 Waiver of Probationary Period. The probationary period for professor/librarian or associate professor/librarian may be waived and tenure may be awarded at the time of appointment, subject to the following conditions: a) the appointee must have previously earned tenure and rank of associate professor or professor at one (1) or more accredited educational institutions; b) the academic department and the program area to which the candidate is to be assigned must recommend appointment with tenure; c) a positive recommendation shall advance through the department/school peer review committee and chairperson; the college peer review committee, and dean to the Provost and Vice President for Academic Affairs at the same time as the request to hire is forwarded; and d) and the University President shall convey the actions on the recommendation at each level to the ISU Board of Trustees at the first meeting following receipt of the recommendation to hire. - d. Initial screening of candidates is done by an appropriate department search committee composed of regular faculty, representing the diversity of department faculty in terms of rank, area of interest, and experience at ISU. The search committee reviews applications, reference letters/lists, and credentials received for evaluation through applicant tracking system and selects candidates for further consideration by the department faculty. Prior to reviewing applicant materials, search committee members will participate in the university's fair-hire training.
- e. The application materials of candidates selected for further consideration are then reviewed by the chairperson, dean, and the Equal Opportunity officer, who may request additional candidate(s) be given further consideration.
- f. The department search committee will review and discuss departmental faculty responses to the selected candidates and write the departmental faculty recommendation, which will be submitted to the department and the department chair.

In cases where there is lack of support at any level and the University President chooses to recommend a candidate, the University President shall convey this information to the ISU Board of Trustees.

5d6 Modification of Policy 360 Sponsored Programs

Rationale: Faculty Senate has approved the following modification to Policy 360. The administration supports this modification and recommends its approval.

360 Sponsored Programs and Institutional Research Compliance

360.1 Proposals Grants and Contracts Externally Funded.

The University encourages faculty and professional staff to seek external support for research and creative projects. External sponsors often provide support for release time, personnel, equipment, travel, and expendable supplies. Because such activities affect the department and often require naming the University as the applicant, rather than the faculty member, all proposals submitted to external agencies or individuals must be approved by University departments/offices affected by the proposed project.

360.1.1 Process for Proposal Approval. ~~These approvals are obtained by routing the proposal through the steps outlined on the University Routing Sheet and in the pamphlet titled "Preparing and Routing a Grant Proposal at Indiana State University electronically through the Office of Sponsored Programs' online system", both of which are, available on the Sponsored Programs website.~~ Office. This procedure assures coordinated effort and consistent reporting once the proposal is funded. At a minimum, proposal routing must include a grant narrative (sometimes called a Statement of Work) and a detailed budget, including any university funds committed to the project.

360.1.2 Process for Development and Submission of Proposals. To facilitate the development and submission of proposals for external funds, the following procedural steps have been established:

360.1.2.1 Sponsored Programs Office. Faculty members contemplating the preparation of proposals should contact the Sponsored Programs Office. This Office provides valuable information about funding opportunities and has a proposal development specialist to assist with the writing and a ~~grant account~~ specialist to assist with the budget. Seeking assistance while writing early drafts may eliminate potential problems in the routing process once the final draft is completed. It is also important for faculty and staff to discuss ideas with supervisors and any colleagues who might be involved with or affected by the project.

360.1.2.2 Format of Proposal. The prescribed format will usually be set forth in the agency's guidelines and application materials, and some agencies request special forms. The Sponsored Programs Office can aid in the preparation of a targeted, well-organized, well-written, specific proposal and provide assistance and institutional information needed to complete sponsor forms.

360.1.2.3 Routing Process. ~~A current University Routing Sheet should be obtained from the Sponsored Programs Office. Use of outdated forms may impede the routing process.~~ Completed, ~~typed~~ proposals should be routed through the Sponsored Programs' online grant system at least ten (10) days prior to the anticipated date of ~~posting/delivery~~ proposal submission.

~~**360.1.2.3.1 Number of Copies.** The University Routing Sheet should be circulated with one (1) complete original (or the number requiring original signatures) and two (2) additional complete copies which will be retained in the Sponsored Programs Office.~~

360.1.2.3.2 Approvals. These materials are to be circulated in the order listed below under "University Compliance Committees" or other applicable compliance committees; chairpersons of all departments affected by the proposed project; deans of all colleges affected by the project; and the ~~Provost and Vice President for Academic Affairs Office~~ Office of Sponsored Programs and Chief Research Officer for final review and approval.

~~**360.1.2.4. Budget Approval.** When all aspects of the proposal are in order, the Sponsored Programs Office forwards the proposal to the grants and contracts administrator in the Controller's Office for budget~~

~~approval. It is then forwarded to the Provost and Vice President for Academic Affairs Office for final approval.~~

~~**360.1.2.54 Signature Authority. Required Signature.** Signature authority for grant and contract All proposals, award documents, and sub-agreements must be signed by the Provost and Vice President for Academic Affairs vests with the Chief Research Officer or the appropriate vice president., in accordance with section 620 of the University Handbook, Contracts Approval, Signatory and Reporting Policy.~~

~~**360.1.2.65 Mailing Submission of the Proposal.** When all signatures approvals have been obtained, the Sponsored Programs Office will contact the faculty or staff member for mailing of the proposal. will work with the faculty or staff member to submit the proposal to the funding agency.~~

360.1.3 Payments. Externally funded or contracted projects will be in an amount agreed upon by the University and the sponsoring agency.

360.1.3.1 Salary of Faculty Member. Time spent on contract research or sponsored instructional activities will be reimbursed to the University out of contract funds, and the faculty and/or staff member will normally be paid no more than his/her established University salary during the academic or fiscal year. Salary amounts charged to state and federally funded projects will always be based upon the individual's institutional base salary.

360.1.3.2 Institutional Base Salary (IBS) – The annual compensation paid by the University for an individual's appointment, whether that individual's time is spent on research, instruction, administration, or other activities. IBS does not include extra service pay, consulting, one-time payments or incentive pay. Additionally, IBS does not include payments from other organizations or income that individuals are permitted to earn outside of their University responsibilities, such as consulting.

~~In no case will a faculty member be paid more than 120 per cent of his/her academic year salary when participation in such research or instructional assignment is added to the regular academic year assignment. During the summer, a faculty member may earn no more than 30 per cent of his/her academic year salary.~~

360.2 ~~University Institutional Research~~ Compliance Committees.

Indiana State University acknowledges its responsibility to assure scientific and ethical research and to comply with federal mandates. The University has established compliance committees and filed appropriate assurances with the U. S. Department of Health and Human Services. These committees include: Institutional Review Board for the Protection of Human Subjects, Institutional Animal Care and Use Committee, Radiological Control Committee, Institutional Biosafety and Recombinant DNA Committee.

360.2.1 Committee Approval. Proposals requiring special approval from one or more of these committees should be routed to the chairperson of the respective committee(s) for approval prior to routing to the department chairperson(s). Further information on these committees is available ~~in~~ on the Sponsored Programs website ~~Office~~.

360.3 Human Subjects Research.

Research projects involving the use of human subjects must be approved by the college in which the research project is located.

360.3.1 Approval by Institutional Review Board. The ISU Institutional Review Board for the Protection of Human Subjects must review and deem exempt or approve ~~external research proposals and may be asked to review~~

~~internal proposals~~ all projects involving the use of human subjects before the research begins. Once approval has been granted, it is unacceptable to deviate significantly from the approved protocol without again obtaining approval.

360.3.1.1 Confidentiality. It is also improper to violate the confidentiality of a human subject without the subject's approval.

360.3.1.2 Manual. A manual, "Policies and Procedures for the Review of Research Involving Human Subjects", has been prepared to assist all members of the University community in complying with the stated policy of ISU with respect to external and internal research involving human subjects. The attention of the researcher is especially drawn to the code of ethics adopted by the various behavioral sciences professional organizations.

Recommendation: Approve the proposed modification to Policy 360 Sponsored Programs and Institutional Research Compliance.

5d7 Modification of Policy 405 Family Educational Rights and Privacy Act Policy

Rationale: Policy 405 currently directs students to make inquiries about ISU's FERPA guidelines by contacting the General Counsel's Office. The Office of the General Counsel, the Office of Academic Affairs, and the Division of Student Affairs all support modification of Policy 405 to be more specific about the compliance obligations of the ISU community and the rights of students. Updating the University Handbook will allow the ISU community to more consistently reference the policy by linking directly to the online Handbook. Faculty Senate has approved the modification of Policy 405 and the administration supports the modification.

Recommendation: Approve the proposed modification to Policy 405 Student Educational Record.

5d8 Modification to Policy 255 ISU Staff Council Bylaws

Rationale: Staff Council approved changes to its Bylaws. Some of these changes necessitated the renumbering of subsequent policies. The text in red represents additions and deletions to the policy.

255.3 Definition of Staff.

For the purpose of the Staff Council the term “Staff” shall include all non-exempt, non-exempt professional, and exempt Staff with the exception of:

- Exempt Staff who are members of the President’s Cabinet.
- Exempt Staff who report directly to a member of the President’s Cabinet.
- Exempt Staff who are represented by Faculty Senate.
- Exempt Staff who are classified as Executives.

255.6 Divisions.

The Council shall be divided into five (5) voting groups (hereafter referred to as Divisions unless otherwise noted). The Divisions are:

255.6.1 Division 1. Academic Affairs

255.6.2 Division 2. Finance and Administration

255.6.3 Division 3. Enrollment Management, Marketing, and Communications

255.6.4 Division 4. Student Affairs

255.6.5 Division 5. University Engagement and University Development

255.6.6 Division Representation. Each Division representation shall be based on the percentage of Staff within that Division. Division representation will be re-evaluated by the Elections Committee Coordinator each year prior to the election process.

255.7.3 Terms of Membership. Membership on Council shall be for a three-year period unless completing a Representative’s vacated term. ~~Representatives may be elected for two consecutive terms (for a total of six consecutive years). After a one-year absence from Council, former Representatives are eligible to run for representation during the next election.~~

255.7.5.1 Steps If Vacancy Occurs. If a Vacancy occurs in a Division the following steps will be taken to fill the vacancy for the remainder of the term:

- a. The Council Chair shall notify the Elections Coordinator ~~Committee~~ of the vacancy.
- b. The Elections Coordinator ~~Committee~~ shall check to see if a nominee that had the next amount of votes in last Election is still interested in serving on Council. If so, that nominee shall fill the Vacancy and complete the Term. If there is a tie between those with the next amount of votes, an election will be held for that division to select one.
- c. The Elections Coordinator ~~Committee~~ shall if no nominee is next in line, accept nominations and an election will be held for that division to fill the Vacancy and complete the Term as specified in 255.7.8. An election will not be necessary if there is only one nominee.

255.7.6.3 Leaves in Excess of Three Months. If the leave will exceed three months, the Elections Coordinator ~~Committee~~ will be notified of the vacancy so that it can be filled temporarily during the approved leave of absence.

255.7.7 Nominations and Election Process for Council Representatives. The Nomination and Election process for Representatives will be conducted by the Elections ~~Coordinator Committee~~. The ~~Coordinator Committee~~ shall:

- a. Solicit nominations for new Representatives in each Division by online ballot.
- b. Contact the nominee(s) in each Division; if the nominee accepts the nomination, add the name to online ballot.
- c. Proceed with the election process in March by online voting.
- d. Tabulate results. The Elections ~~Coordinator Committee~~ must retain the election results until the next general election.
- e. Provide election results to the Council Chair and certify that the nomination and election process was conducted in accordance with prescribed procedure. The Council Chair will announce the election results.

255.7.7.1 Audit of Election. Steps to be taken if audit of election is requested by nominee:

255.7.7.1.1 Written Request. A request in writing must be made to the Council Chair within five (5) days of the election results. The Council Chair shall notify the Elections ~~Coordinator Committee~~ to proceed with the audit.

If the proxy vote is in relation to Officer elections, the proxy vote is to be submitted to the ~~Chair of the Elections Coordinator Committee~~ rather than the Council Chair.

...

255.7.9.1 Verification of Signatures. Upon receipt of the Petition for Recall, the Council Chair will inform the Representative of the petition for removal and ask the Elections ~~Coordinator Committee~~ to verify the validity of the signatures. 5g New Program, Accelerated Graduate Programs

Minimum Standards, Policies, and Procedures for Accelerated Graduate Programs

Programs are free to adopt more stringent rules or procedures. These are minimum requirements and programs are NOT required to adopt an Accelerated Graduate Program model; Accelerated Graduate Programs are an opt-in initiative. Admission to an Accelerated Graduate Program is **NOT** a “fifth year” extension to the four year graduation guarantee; graduate study is not covered by that guarantee.

- Accelerated Graduate Programs must be considered by Graduate Council and Faculty Senate as part of the Curricular Process. Curricula will not be approved without evidence of rigor appropriate to a Master's-level program.
- Programs interested in an Accelerated Graduate Program should consider modifications to their undergraduate programs so they articulate with their graduate curriculum.
- Programs can offer a regular AND accelerated graduate program option, but must submit regular and accelerated graduate degree maps to show the curriculum can be completed under both models.
- Accelerated Graduate Programs require a minimum undergraduate GPA of 3.0 at time of admission.
- Graduate admission is provisional until the Bachelor's degree is awarded with a final cumulative undergraduate GPA of 3.0 (programs may set a higher limit, so students should check program requirements). All applicants to Accelerated Graduate Programs are subject to usual graduate admissions procedures.
- To be admitted, students must have completed at least 80% of the total credits needed to earn their undergraduate degree (e.g., 96 credit hours out of a 120 credit hour degree) by the start of their fourth year.
- Students may be dual enrolled (undergraduate & graduate) for their last two semesters of their undergraduate degree, but must complete a dual enrollment agreement in order to do so. Graduate Assistantships (GA, RA, TA, etc.) are not available to dual-enrolled students; to be a Graduate Assistant, students must have been awarded an undergraduate degree.
- While dual enrolled, student status will be undergraduate for the purposes of financial aid and registration and records.
- Students may count up to 9 hours of graduate courses (400/500 level) toward both degrees. The course must be taken at the 500 level to count toward undergraduate and graduate degrees.
- 500-level credits will be recorded on the undergraduate transcript and then transferred to the graduate transcript once the undergraduate degree is awarded.
- Students will also be allowed to take up to 6 credit hours of 600-level courses during their senior year of undergraduate study.
- Credits earned at the 600-level while dual enrolled will count only toward the *graduate* degree and be recorded only on the graduate transcript.

Graduate Council: 8-0-0, March 1, 2017; Executive Committee addition in red: 9-0-0, 3/7/2017

The proposal has been approved by the Dean of the College of Arts and Sciences, Faculty Senate, and has the support of the Provost and Vice President for Academic Affairs.

Recommendation: Approval of the new program, Accelerated Graduate Programs, effective fall 2017.

5h New Program, Physics – Bachelor of Arts

This proposal stems from the external review of the chemistry and physics programs at ISU in 2015-16. It was recommended that we consider developing a B.A. degree in physics. The recommendation was recently reinforced in a joint report of the American Physical Society and American Association of Physics Teachers encouraging physics programs to redesign their curriculum, offering both B.S. and B.A. degrees, in which the latter is “intended to promote a broader education by requiring fewer physics courses.”

The ISU physics program offers an Engineering Physics B.S. concentration that couples a minimal set of physics courses with 22 credits of chemistry, computer science, and technology. Because students may well be interested in combining their study of physics with disciplines other than engineering, it seems reasonable that we eliminate these 22 credits and repackage

most of the remaining physics and math courses as the “B.A. Degree in Physics”. The B.A. allows students to combine physics with their interests in other disciplines, such as math, biology, business, chemistry, communications, education, music, political science, or technology. The B.A. curriculum can be straightforwardly completed by students within six semesters.

The B.A. degree is primarily intended for students who do not plan to pursue a career as a professional physicist or seek a graduate degree in physics. It is more appropriately suited for students who plan to pursue secondary teaching opportunities, enroll in a professional program in the medical or health sciences, or pursue other career paths (e.g. business opportunities, law school, the military, etc.). Half of the students who completed the physics major at ISU over the past six years have pursued these alternative career pathways.

The B.A. degree curriculum consists of 43 credits of physics and math, considerably fewer than the 62-65 credits of our B.S. degree concentrations.

The proposal has been approved by the Dean of the College of Arts and Sciences, Faculty Senate, and has the support of the Provost and Vice President for Academic Affairs.

Recommendation: Approval of the new program, Physics – Bachelor of Arts, effective fall 2017.

5i New Program, Traffic Engineering Technology Minor

Adding a minor to the Civil Engineering Technology program to allow students a focus in the area of transportation engineering. This minor would be open to all ISU students and includes the required math and electronics prerequisites. The proposal has been approved by the Dean and Faculty of the College of Technology, Faculty Senate, and has the support of the Provost and Vice President for Academic Affairs.

Recommendation: That the Traffic Engineering Technology Minor, in the College Technology, be approved effective fall 2017.

5j New Program, Intelligence Analysis

The impetus for the creation of this new program came from a variety of different sources. First, as part of our assessment process, we conduct focus groups of seniors at the end of each semester. Many students reported the desire to have exposure to various other courses in criminal justice related to intelligence analysis and cyber crime. Second, we interviewed several agency directors including a director of NCIS, a deputy director of the FBI, a director of a state correctional system, police chiefs, several police officers and federal law enforcement officers, a naval intelligence officer, and an army brigadier general in charge of an intelligence unit regarding the gaps in education for incoming employees and the field. All stated Intelligence Analysis is a growing sector of employment that is currently under-served by the educational community.

The proposal has been approved by the Dean of the College of Arts and Sciences, Faculty Senate, and has the support of the Provost and Vice President for Academic Affairs.

Recommendation: Approval of the new program, Intelligence Analysis, effective fall 2017.

5k New Program, Cyber and Security Studies

The impetus for the creation of this new program came from a variety of different sources. First, as part of our assessment process, we conduct focus groups of seniors at the end of each semester. Many students reported the desire to have exposure to various other courses in criminal justice related to intelligence analysis, cyber crime and private security. Second, we interviewed several agency directors including a director of NCIS, a deputy director of the FBI, a director of a state correctional system, police chiefs, several police officers and federal law enforcement officers, a naval intelligence officer, and an army brigadier general in charge of an intelligence unit regarding the gaps in education for incoming employees and the field. All stated Cyber and Security Studies is a growing sector of employment that is currently underserved by the educational community.

The proposal has been approved by the Dean of the College of Arts and Sciences, Faculty Senate, and has the support of the Provost and Vice President for Academic Affairs.

Recommendation: Approval of the new program, Cyber and Security Studies, effective fall 2017.

5l New Program, Corrections Minor

Since 2013, the Department of Criminology and Criminal Justice has been conducting a program assessment. Assessment results indicated a need to improve the writing skills of our students. To accomplish this goal, we have proposed elsewhere to modify our curriculum to add 9 credits to the required portion of the curriculum, which includes a writing intensive course. In an effort to keep our required major at 42 credits, we proposed to eliminate the required 9 credits of concentrations available for our students. Because our assessment also found that many students wanted to complete a focus area, we created minors that could be completed by CCJ majors, as well as any other major on campus.

The proposal has been approved by the Dean of the College of Arts and Sciences, Faculty Senate, and has the support of the Provost and Vice President for Academic Affairs.

Recommendation: Approval of the new program, Corrections Minor, effective fall 2017.

5m New Program, Forensic Investigations Minor

5p Naming of the Recital Hall and Atrium in the Landini Center for Performing and Fine Arts

Lt. Margaret L. Boyce was born in Terre Haute in 1926. She graduated from Indiana State Teacher's College in 1949 with a degree in business administration. While at ISU, she was active in the Women's Athletic Association, Sigma Kappa, and Mortar Board. She took most of her electives in music and sang in the College Chorus for four years.

During her senior year, she applied for and was accepted as an Ensign in the U.S. Navy. She reported to Officer Candidate School upon graduation and joined the second class of women to be accepted for WAVES Officer Training following World War II. She retired in 1975 after 26 years of active and reserve Navy service. She then worked as a civilian employee with the Navy and Coast Guard in a variety of roles until her retirement in 1990.

Lt. Boyce is a lifetime member of the Blue Card Club and is a long-time member of the President's Society. She has made substantial contributions to the University's School of Music fund and to an endowed scholarship for choral music students. She indicated she "could never have been an officer in the U.S. Navy or risen to GS-11 in the Federal Government Service without the fine education I received at Indiana State. So now it is time to give back."

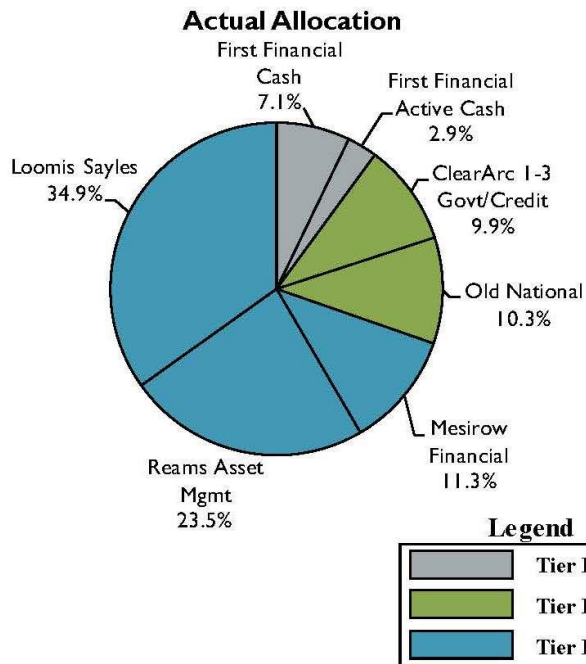

The University seeks to pay tribute to Lt. Boyce for her long-standing support of Indiana State University and its music programs by naming the atrium and recital hall in the Richard G. Landini Center for Performing and Fine Arts in her honor as the Margaret L. Boyce Atrium and the Margaret L. Boyce Recital Hall.

Recommendation: Approval to name the atrium and recital hall in the Landini Center for Performing and Fine Arts the Margaret L. Boyce Atrium and the Margaret L. Boyce Recital Hall in recognition of Lt. Boyce's long-standing support of Indiana State's music programs.

Revenues

Debt Service

Student Fee Bonds, Series R were issued in September 2016. The issue provided funding for the expansion/renovation of CHHS and refunded Series M and Series O.

As a result of the Series R financing structure, additional Series R principal and interest payment reimbursement will be received from the State of Indiana in the spring installment. The total amount to be received is \$5,321,747.

Student Tuition

Student tuition is below the 2016 amount by \$2,253,806, reflecting a decline in enrollment. Fall tuition is below budget by \$825,881 and Spring tuition is below budget by \$1,499,268.

Other Fees and Charges

Other Fees and Charges decreased \$260,922 from the prior year. This is a result of reduced collection fees, deferment fees, collection fees, and undergraduate admission fees.

Other Income

Other Income is ahead of last year's total by \$440,659. This is due to an additional \$165,375 in utility reimbursement from Residential Life and a timing difference in the recognition of construction project management fees.

Reimbursements and Income Reappropriated From Other Sources

Reimbursements and Income Reappropriated from Other Sources in 2016 includes \$1,545,623 that represents the salary and benefits of ISU Foundation employees that were transferred to the University in 2017.

Expenses

Compensation

Foundation employees were included in salaries and benefits for 2016 to make it comparable to 2017 in which Foundation employees were transferred to the University. Salaries and Wages grew by \$1,169,786 which reflects a 2 percent salary increase effective November 1, 2016. Fringe Benefits decreased by \$269,596 reflecting the reduction of life insurance and medical expense for retirees that are being reimbursed 100% from the VEBA Trust. This decrease was partially offset by growth in active employees' medical expense.

Departmental Expenses

Departmental Expenses shows a decrease of \$2,792,214. This is a result of reduction of \$727,367 of Supplies and Related Expenses that is a net of decreased Foundation payments for services offset by additional search expenses and a reduction of \$2,111,062 in Repairs and Maintenance resulting from the IT fiber upgrade in various campus buildings during 2015-16.

Utilities and Related Expenses

Utilities and Related Expenses shows an increase of \$771,544 due to increased electrical, water and sewage costs.

Capital Improvements

Capital Improvements are below last year's amount by \$964,569. This is caused by timing differences as funds are not transferred until bids are received and awarded for capital projects.

Student Scholarship and Fee Remissions

Student Scholarship and Fee Remissions decreased by \$298,246 reflecting a decline in enrollment.

Transfers Out

Transfers Out increased \$561,706 reflecting timing differences on budgeted transfers.
